

Color

Design Guidelines followed in this project

- Match Between System and Real World: Use familiar language and concepts.
- Consistency and Standards: Follow design conventions and ensure uniformity.
- Recognition Rather Than Recall: Make options visible and use clear labels.
- Aesthetic and Minimalist Design: Focus on simplicity and effective use of whitespace.
- Accessibility: Ensure high contrast.
- Clear Menus: Design clear and intuitive navigation menus.
- Design Patterns: Use consistent design patterns throughout the interface.
- Component Reuse: Reuse components to maintain visual consistency.
- Typography: Maintain consistent typography styles (font, size, weight).
- Color Scheme: Use a consistent color scheme across the website.
- Contrast Ratio: Maintain a contrast ratio of at least 4.5:1 for text.

Rita

My Projects

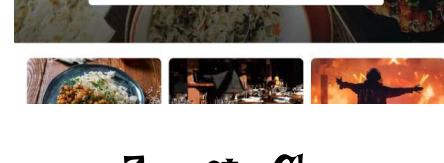

Netflix Clone

A fully responsive clone of Netflix with a sleek UI and integrated video streaming capabilities.

Amazon Clone

An e-commerce platform inspired by Amazon, featuring product listings, shopping cart, and checkout functionalities.

Zomato Clone

A restaurant discovery and food ordering platform that allows users to browse restaurants, view menus, and place orders online, mimicking the features of Zomato.

Collaborate with Me

If you're excited about building innovative web solutions and think we could create something amazing together, let's connect. I'm always open to new projects and collaborations.

service page

What I Offer

I provide a range of web development services including front-end development, back-end development, and full-stack solutions. My goal is to create responsive, user-friendly websites that meet your business needs.

Front-End Development

Creating visually appealing and interactive user interfaces using HTML, CSS, and JavaScript.

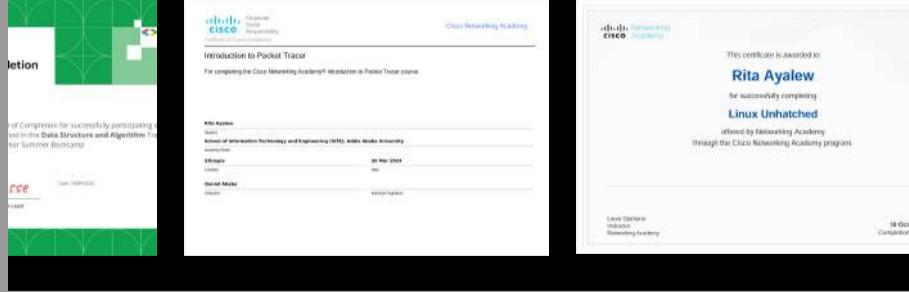

Back-End Development

Building robust server-side applications and APIs using technologies like Node.js, Express, and databases.

Certificates

qualifications over the years

Feel free to reach out via contact.

Meet Me

Hello! I'm Rita Ayalew, a passionate web developer based in Addis Ababa, Ethiopia. I am currently a software engineering student at Addis Ababa Science and Technology Institute of Technology (SITE).

Hobbies

When I'm not coding i like trying out new recipes, which lets me explore diverse cuisines. I enjoy drawing and expressing my creativity visually. I also write poems and find joy in reading novels, which transport me to different worlds.

Let's Connect

Diving into the tech world has armed me with a powerful mix of technical know-how and creativity! I love the opportunity to take on challenges with fresh ideas. Let's build something incredible together!

for each of the 1000 samples, we can calculate the mean and variance of the estimated values. The results are shown in Figure 1. The mean values are very close to the true values, while the variances are significantly smaller than the true values. This indicates that the proposed method is able to estimate the parameters accurately.
